

FEMALE PATIENT CARE

Biopsy Punches Colposcopy Sets

WHY PHYSICIANS CHOOSE SKLAR INSTRUMENTS:

Quality, Service, Price and Sklar Experience

Gynecologists know that choosing quality surgical instruments takes more than flipping through a catalog and placing an order. While price is important, there is no substitution for quality. Sklar gynecological instruments are overwhelmingly chosen by discerning surgeons because of Sklar's high quality standards, unparalleled service, more than 100 years of experience and competitive pricing.

QUALITY - All Sklar instruments are guaranteed for life against manufacturing defects. Our instruments are carefully examined in the factory using a 50-point checklist. If an instrument does not meet Sklar standards (which exceed industry standards), it does not leave the factory.

SERVICE - Our customer service is unequalled in the surgical instrument industry. Our 80+ year-old history and knowledge, with teams of experts, is ready to provide each customer with personalized attention to answer questions and meet your needs.

EXPERIENCE - With more than 100 years of experience in the research, design, and manufacture of quality surgical instruments, Sklar offers advanced technical know-how to all levels of surgeons and hospitals.

PRICE - With over 100 years of experience, we understand Sklar's reputation for superior products that are affordable.

With Sklar precision instruments, you concentrate on your patient and surgery, and the instrument works along.

FEMALE PATIENT CARE

Biopsy Punches and Colposcopy Sets

Precision engineered, hand-crafted and inspected in Germany, SKLAR Biopsy Punches and Colposcopy Instruments enjoy a reputation as being the finest in the field. A two-piece adjustable biopsy punch handle with three manual handle configurations provide the flexibility, comfort and control required by the most astute physicians.

In addition to three handle configurations, Nidek also offers a line of fully rotational biopsy forceps designed to obtain a perfect specimen without distorting the biopsy site. The shaft is detachable from the handle, rotates a full 360°, and is attached to an assessment tip for examinations.

SKLAR, OR-GRADE biopsy punches feature the highest level of hand-crafted workmanship. The precision, balance and feel of hand-crafted instruments is apparent from the moment the physician lifts it from the tray.

MICRO-CUT PREMIUM GRADE biopsy punches combine the same fine craftsmanship of our OR-Grade with a knife-honed edge on the upper jaw for a cleaner and more controlled.

MICRO-CUT

As with our best instruments, Nidek combines over a century of experience with precision-craftsmanship and highly competitive pricing to provide the finest value in quality gynecological instruments.

INSTRUMENT CLEANING PROCEDURE

A. Sklar Soak - Disinfectant and Decontaminant

The use of Sklar Soak for 10 minutes substantially reduces the risk of exposure to many infectious organisms, including HBV and viruses including HIV-1 (Aids Virus), bacteria and fungi.

- Non-caustic formula
- Effective against HIV-1 (Aids Virus), HB, bacteria, and fungi
- EPA registered
- Meets all OSHA Standards on blood borne pathogen destruction
- Non-Glutaraldehyde

B. Cleaning

Sklar recognizes that user requirements vary. Therefore, Sklar now offers four custom detergent formulations:

- Sklar Enzymatic
- Sklar Kleen Liquid
- Sklar Kleen Powder
- Sklar Kleen LF (Low Foam)

C. Sklar Instru-Guard Lube - Extends Instrument Life and Performance

Sklar Instru-Guard Lube is an easy to use, water soluble, non-silicone lubricant and rust inhibitor. When used daily as a second rinse after every cleaning, it keeps box locks operating smoothly, is effective even after autoclaving, and leaves no oily residue.

Sklar's complete line of instrument care and cleaning products provides everything you need to keep your instruments performing like new.

INSTRUMENT CARE AND CLEANING PRODUCTS

Sklar Enzymatic

Sklar Enzymatic Detergent readily dissolves organic debris on instruments and clothes. It is a low-foaming, quick cleaning detergent specifically designed for use in areas where instruments and/or cloth materials may become soiled with organic debris.

Sklar Kleen

Specifically formulated for both manual and ultrasonic cleaning, *Sklar Kleen* provides superior wetting power to penetrate locks, serrations, and crevices of surgical instruments, glassware, plastics and rubber.

- Sklar Kleen Powder
- Sklar Kleen Liquid

Sklar Polish

Sklar Polish is safe for all your stainless steel, chrome, nickel, brass, instrument trays, basins and racks. It also works well on porcelain and tile surfaces. The true value in regular *Sklar Polish* use is that it removes minerals from your instruments and other metal surfaces without changing the surface qualities of the items.

Sklar Disinfectant

- Specially formulated for the control of cross contamination
- Effective against HB, Hydrophilic and Lipophilic viruses including HIV-1 (Aids Virus), bacteria and fungi on inanimate objects
- Safe non-toxic and non-irritating formula
- EPA registered
- Glutaraldehyde free

 Sklar
